

INFORMATION BULLETIN

To Our Valued Customers, Employees and Community

Coastland Operations Update

Over the course of the past 4 weeks, Coastland Wood Industries made the difficult decision to curtail operations while we searched for the best solutions to ensure that all of our employees were able to do their jobs safely and effectively with the onset of the COVID-19 pandemic. We have watched carefully for the recommendations from the CDC and the Government of British Columbia and took these guidelines and more back to our operations and restructured our safety and operating protocols.

I am happy to announce that all of our operations are now safely back in production and have been building on our operating capacity over the past several weeks.

We will continue to monitor the COVID-19 situation and work with our Employees, Customers and the Community to ensure that everyone who deals with Coastland Wood Industries understands the importance that social distancing and the necessary safety protocols make within our jobsites as well as within the Communities that we reside.

As stated before, our number one Core Value at Coastland is our People and safety without compromise.

We look forward to getting past the COVID-19 Pandemic with you and getting all of our lives back to normal. We appreciate your patience and understanding during this time.

Doug Pauze
President
