

The need is  
**critical**

Help us raise **\$5 million**  
for the new Intensive Care Unit at  
Nanaimo Regional General Hospital

Coastland Wood Industries has been a generous supporter of the Nanaimo & District Hospital Foundation and Nanaimo Regional General Hospital (NRGH) for many years through Golf for Life and internal company fundraising activities and events. This year, Coastland Wood Industries is supporting the Hospital Foundation's campaign to raise \$5 million to purchase all the medical equipment for the new Intensive Care Unit (ICU) at NRGH.

*"At the heart of every healthy community is a strong, well equipped hospital and we are very excited to have the opportunity to be a part of this project."*

R.L. (Bob) Shields

Coastland Wood Industries invites you to join them in supporting this critical project. Donations will be matched by the Shields Foundation!

#### About the ICU Campaign

Built in 1970, NRGH's ICU is an essential component of healthcare delivery across our entire hospital for patients and the staff who care for them. In 2013, an external review said despite the challenges in an outdated facility, NRGH's ICU ranks near the top nationally for positive patient health outcomes.

Click on the image above to watch the video and learn why the new ICU at NRGH is urgently needed.

#### About The Hospital Foundation

The Nanaimo & District Hospital Foundation funds medical equipment, patient comfort items and staff education as well as large, transformational projects to improve healthcare services in our region.

The Hospital Foundation supports NRGH, Oceanside Health Centre and three extended care facilities in our central Vancouver Island communities.

The new ICU at NRGH is critical for so many reasons. It will provide:

- A modern facility that can better support the medical team in providing the complex care required for critically ill patients
- Larger rooms that can accommodate state-of-the-art medical equipment and provide patients with increased privacy
- Welcoming spaces for patients' families to consult with the medical team

The total cost to build the new ICU is more than \$33 million and is a partnership between the Provincial Government through Island Health, the Nanaimo Regional Hospital District and the Nanaimo & District Hospital Foundation.

To donate in support of the new ICU and to have your gift matched by the Shields Foundation, click on the link: <https://nanaimohospitalfoundation.com/coastland/>

All donations are tax deductible and greatly appreciated. Thank you!
